

BankWorld Mobile Application Technical Training

This course provides technical training on the banks Mobile Application allowing developers to customise the user interface.

This course gives participants an in-depth knowledge of how to perform customisation of the various elements of the user interface.

This is a hands-on course that allows participants to practice some of the relevant tasks.

Benefits:

Having staff trained in customisation will enable the bank to develop multiple segment brandings for customers in a more efficient way, and may in turn result in lower consultancy costs.

Our training is a blend of classroom and online training and includes:

- Overviews
- Installation
- Configuration
- Operations
- Tools

For more information please email us at training@cr2.com.
