

# BankWorld Technical Overview

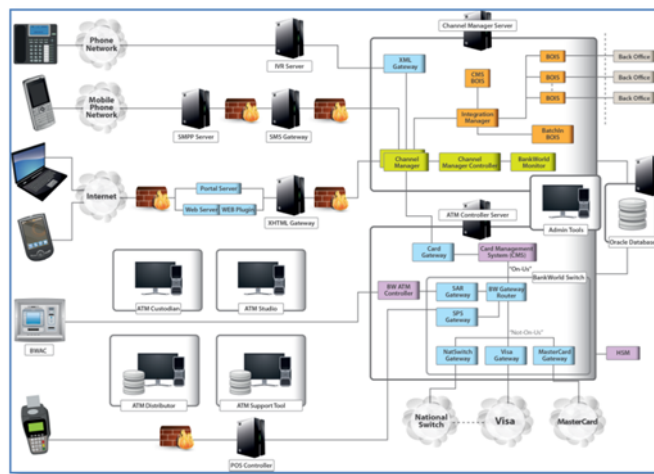

There are many technical things to consider when implementing a BankWorld system. This course gives participants an understanding of the technology underlying BankWorld, the different ways it can be deployed, integration requirements, and security.

This is an overview course that gives participants an introduction to BankWorld technical requirements.

## Benefits:

You will be able to better understand technical issues such as hardware and software requirements, availability, scalability and performance, integration into different systems, and security.

This knowledge will help bank staff to prepare for and assist in the deployment of the BankWorld system more effectively, and may in turn result in lower consultancy costs. It will also give bank staff an understanding of how BankWorld can be customized to meet specific requirements such as localization, etc.

**Duration:**  
0.5 day (classroom-based)

**Audience:**  
This course can be taken by anyone, but it is designed in particular for:

- ❖ Bank management staff
- ❖ Technical staff

**Location:**  
CR2 offices in Dublin, Dubai and Amman. Can also be run onsite on request.

Our training is a blend of classroom and online training and includes:

- Overviews
- Installation
- Configuration
- Operations
- Tools

For more information please email us at [training@cr2.com](mailto:training@cr2.com).

## Pre-requisites:

- ❖ *BankWorld Architectural Overview* (eLearning course)
- ❖ Basic understanding of terms such as *PIN*, *ATM*, *database*, and *platform*

**Objectives:** At the end of this course you will be able to:

1. List the system hardware and software requirements
2. Draw basic diagrams to represent the architecture of BankWorld
3. Identify features that contributes towards system availability, scalability, and performance
4. Identify the points at which BankWorld may need to be integrated into different systems
5. List the security options available for different channels

## Course Outline:

- ❖ BankWorld Overview
- ❖ Architectural Overview
- ❖ Hardware and Software Requirements
- ❖ Deployment
- ❖ Integration
- ❖ Security
- ❖ Course Exam

## Materials:

Course Participant Guide, Course handouts / diagrams, Glossary, relevant User Guides, etc., supplied on Apple iPad<sup>1</sup> (or equivalent) or on USB key.

Our training is a blend of classroom and online training and includes:

- Overviews
- Installation
- Configuration
- Operations
- Tools

For more information please email us at [training@cr2.com](mailto:training@cr2.com).
