

# MIS Reports Interface - Workshop

CR2 offers a blended training programme about the Management Information System (MIS) Reports Interface. The programme consists of an introductory eLearning followed by a classroom-based workshop.

The eLearning course introduces participants to the MIS Reports Interface and the concepts involved in MIS reports. The follow-on classroom-based workshop enables participants to practice tasks related to planning MIS reports and creating the SQL required for these reports.

### Benefits:

After taking this workshop, you will have had some practice in actually creating the SQL queries required for various types of report.

Having trained staff within the bank who understand what the MIS Reports Interface is and how it can be used will result in greater reporting capabilities within the bank, and lower consultancy costs.

### Duration:

1 hour (eLearning)

### Audience:

- ❖ Bank Report Development staff
- ❖ Bank Business and Operational Management staff
- ❖ Internal CR2 PS staff
- ❖ Other internal CR2 staff

Our training is a blend of classroom and online training and includes:

- Overviews
- Installation
- Configuration
- Operations
- Tools

For more information please email us at [training@cr2.com](mailto:training@cr2.com).

[www.cr2.com](http://www.cr2.com)

## Location:

CR2 offices in Dublin, Dubai and Amman. Can also be run onsite on request.

## Pre-requisites:

- ❖ The relevant BankWorld Operations courses for your bank
- ❖ An understanding of SQL and report-writing tools

### Objectives:

 At the end of this course you will be able to:

1. Identify which Materialised Views are suitable for which type of report
2. Identify what fields should be included in what type of report
3. Write the relevant SQL queries
4. Be ready to format the reports (using the tool of your choice)

### Course Outline:

- ❖ Recap session
- ❖ Activities
- ❖ Workshop Summary

## Materials:

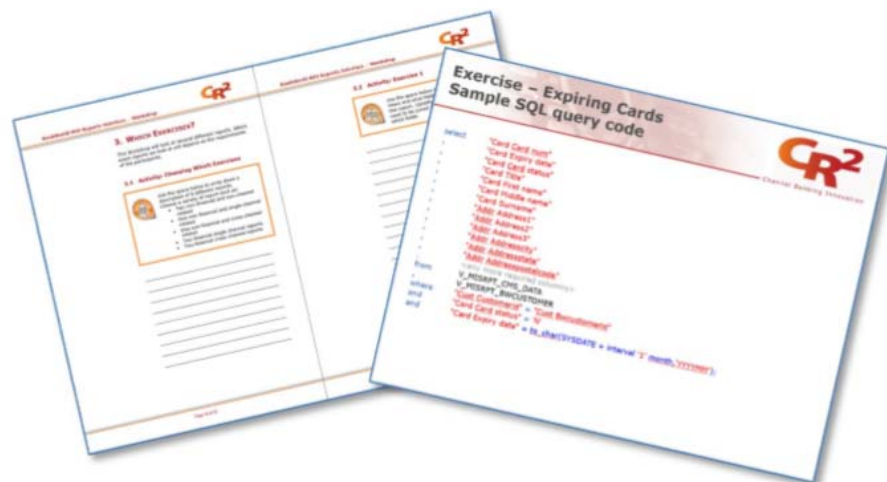

Course Participant Guide, PowerPoint, etc., supplied on Apple iPad<sup>1</sup> (or equivalent) or on USB key.

Our training is a blend of classroom and online training and includes:

- Overviews
- Installation
- Configuration
- Operations
- Tools
